

THIS MONTH IN TECH

BELOW ARE SOME RESOURCES TO HELP YOU AND YOUR STUDENTS EXPLORE THE WORLD AROUND US.

VIRTUAL LEARNING

Click on the Icons to explore each resource

View high-definition panoramas from anywhere in the world, including snowy mountain tops and deep sea coral reefs, at **360 Cities**, which contains one of the internet's largest collection of uploaded panoramic images.

360 cities

Global Trek from Scholastic looks like Expedia or Travelocity, but is created for students eager to explore the world from their computer. Students can choose from a list of countries and will be asked to keep a travel journal to write about different topics during their online trip.

Empatico. Empatico is a way for students and teachers to connect to other classrooms around the world.

Skype in the Classroom offers live educational experiences for students including Virtual Field Trips, talks from Guest Speakers, classroom to classroom connections, and live collaboration projects.

historypin

Historypin is a digital, user-generated archive of historical photos, videos, audio recordings and personal recollections. Search by cities or historical events.

Digital Story Telling

Bring the world's cultures alive in the classroom using stories as a pedagogical tool for growing minds from **Global Oneness Project**.
