# THIS MONTH IN TECH

*February 27th*

Try a new digital tool and celebrate education innovation on February 27th for Digital Learning Day. Explore the following linked activities and resources to try in your classroom!

## What is Digital Learning Day?

**"Digital Learning Day is not about technology, it's about learning. It's not about laying off teachers for laptops, it's about enhancing the role of the teacher in America's classrooms. Digital Learning Day promotes the effective use of modern day tools afforded to every other industry to improve the learning experience in K-12 public schools."**

- Digital Learning Day, The Alliance for Excellent Education, 2020
